

Catch the stick Western

Order the exciting Stick Catching game easily online!

A true classic and still an incredibly thrilling game: Old Dutch stick catching is always fun. How quick are the participants' reflexes? They must try to catch as many sticks as possible, which fall one by one at random. The question is... when? Participants need to be ready and have quick reflexes. Guaranteed fun and laughter with this nostalgic game.

Set up in 5 minutes

The Stick Catching game is easy to set up and ready to use within 5 minutes. The frame is airtight, meaning it only needs to be inflated once and then functions without a blower. The bar contains 10 electromagnets to which the sticks are attached, controlled by a control box. This is powered by mains electricity. Stick Catching is available in 3 fun themes (jungle, western, and farm) and comes standard with sticks. For an additional fee, bananas can be purchased instead of sticks for a new dimension of gameplay! Feel free to contact us for more details.

Top quality bouncy castles and inflatable games
