

Zap a Mole

The IPS game is used with 1 IPS system that includes 10 lamps. (sold separately)

The classic arcade game, but with an interactive twist!

We have reinvented the classic 'mole' arcade game by adding Interactive Play Systems. Instead of the mole suddenly appearing for the player to knock down, the IPS light on top of the mole heads will turn on. This unique game can either be played one on one, or alone. Try to hit the mole as many times as you can to score points and beat your opponent.
